Legal Management and the Shipping Business

General Awareness Workshop for Managers and Other Professionals Providing a Global and Updated Approach to the Shipping Business and its Legal/Managerial Environment

Why Choose this Training Course?

This training course will provide updated knowledge and skills to professionals interested in understanding the fundamentals of the shipping business and the legal environment surrounding international shipping. The training course acknowledges the complexity of international shipping regulations; it seeks to familiarize trainees through managerial elements, best industry approaches and practical examples with essential subject areas at the cross roads of shipping regulations and shipping management.

This training course will feature:

- Introduction to the shipping business
- Legal framework and management of maritime safety and marine environment protection
- Legal framework and management of the human element
- Carriage of goods by sea and maritime claims
- The shipping business and marine insurance

Who is this Training Course for?

This AZTech training course is suitable to a wide range of professionals but will greatly benefit:

- Managers from the shipping industry
- Managers from the oil and gas industry
- Jurists
- Technical personnel keen to develop familiarity with international regulations and managerial practices
- Senior professionals interested in updates
- Market newcomers
- Administrators in contact with the maritime industry
- NGOs

How will this Training Course be Presented?

This AZTech training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes lectures with active delegate participation including problem solving and discussions. Several practical examples will be presented, and the focus will be on current best practices.

Workshops will include case studies and will be presented with explanation of practical measures necessary for efficient managing of marine pollution problems. Various examples from real-life practice will be included and combined with video animations to help gain the confidence in informed decision making.

Course Schedule:

18 - 22 November 2018
17 - 21 November 2019
Dubai, United Arab Emirates

What are the Goals?

By the end of this AZTech training course, participants will be able to:

- Improve their understanding of the shipping business and how it operates
- Identify key areas in the shipping business which deserve special focus
- Enhance their understanding of shipping regulations
- Identify legal and managerial challenges
- Develop familiarity with current trends in the shipping industry
