IOSH Managing Safely

18 - 22 Aug 2019, **Abu Dhabi**

20 - 24 Oct 2019, **Dubai**

30-SEP-18

IOSH Managing Safely

*This is an IOSH (The Institution of Occupational Safety and Health) Accredited Course**

Why Choose this Training Course?

Safety is not the prerogative of the safety specialist. Safety is one of the component parts in every management discipline. An office manager is no less responsible for the safety of his team than the construction manager. The law and company policy applies equally to both. This Health & Safety training course in Dubai will not turn delegates into safety experts but it will give them the appreciation of what safety issues are about and the methods available to them to ensure that safety is implemented in their own workplaces. Managers will be able to review their own departmental systems for safety, introducing new controls or implementing changes as appropriate to ensure safety in the workplace.

This AZTech training course will feature:

- Workplace precaution hierarchies
- Risk assessments
- Data and techniques required to produce an adequate record of an incident
- Active monitoring checklists
- The component parts of a recognised Safety Management System

Who is this Training Course for?

This AZTech training course is suitable to a wide range of professionals but will greatly benefit:

- Managers of the production process
- Engineers in maintenance
- Office Managers
- HSE personnel
- Team Leaders
- Supervisors

How will this Training Course be Presented?

This AZTech training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. The training course is presented with superb power point and animated graphic presentations. Quizzes, games and DVDs keep the delegates active and fully involved, on the ball and never bored. It is a practical program with easy guidance and a sharp business aim. Delegates will be enthusiastic and involved and ready to go back to implement the methods learnt on going back to work.

Course Schedule:

18 - 22 Aug 2019, **Abu Dhabi**
20 - 24 Oct 2019, **Dubai**

What are the Goals?

By the end of this AZTech training course, participants will be able to:

- Identify how to control risk
- Understanding their own responsibilities
- Calculate and assess risks
- Analyse the results of accidents
- Combine the results of Active and Reactive monitoring

The Certificate

- AZTech Certificate of Completion for delegates who attend and complete the course
- IOSH Certificate will be provided to delegates who pass both the on-demand and work-based assessments
